Loving Grasslands

a short documentary series on land stewardship and grassland restoration from Victoria's Volcanic Plains

Come to the Launch

On Tuesday 29th November

At 6pm for 6.15pm start – 8pm

Sunbury Global Learning Centre –Conference Room 2
(Light refreshments provided)

In 2022, the Sustainable Engagement Team worked with Guerin Group Films to produce 4 short video documentaries capturing passionate local landholders and managers working with nature to restore and maintain the health and biodiversity of the local environment.

Loving Grasslands tells stories of land stewardship, of managing native grasslands and grassy woodlands to achieve productive and ecological outcomes, and the use of fire as a management tool.
